When is the best time to study abroad?

Typically, the best time for Mass Communications students to study abroad is summer and second semester sophomore year. Because the Mass Communications curriculum is so sequential, studying abroad in fall or spring could delay one's graduation. The key is to begin planning early (freshman and first semester sophomore year) so you can plan accordingly to study abroad one fall or spring.

What courses should I take abroad?

The Mass Communications Department works closely with the Education Abroad office to ensure that classes taken abroad will fulfill requirements in your degree. The study abroad programs listed here were carefully selected for you. Students can choose to participate in programs that will fulfill major, minor, general education, and/or elective requirements. A growing trend is to complete an internship abroad (the equivalent to MASC 493). Four of the five concentrations require MASC 493 to graduate.

How can I afford to study abroad?

Studying abroad does not have to be expensive! VCU offers a variety of program options to fit most students' budgets and the Education Abroad office assists students with identifying and applying for funding. Consider the following:

- Use what you already have! Most financial aid and scholarships that you already receive can be used toward study abroad. Other sources of funding may also help: pre-paid tuition plans, veteran's benefits, etc.
- Scholarships: There are VCU scholarships to study abroad as well as nationally competitive scholarships. Begin your search on our site and at StudyAbroadFunding.org and DiversityAbroad.com
- Program length: Per day expenses are often less expensive on semester programs than on summer programs and airfare may cost the same regardless of the length of your stay
- **Program type:** Programs with more structure that include group activities or excursions may be more expensive than exchange programs which include tuition, room, and board.

- **Cost of living:** If you're looking to save money on studying abroad, avoid destinations with a high cost of living like capital cities and popular tourist destinations.

- **What's included?** When considering the cost of a program, determine what the program fee includes…and what it doesn’t. Some are almost all-inclusive and will cover the cost of a cell phone, insurance, group excursions and welcome/farewell receptions whereas other programs cover only the basics.
