**Program description:** Employers, like professional and graduate programs in every field, want candidates familiar with globalization who know how to work successfully with people from all over the world. The most successful candidates are those with proven experience and who can engage the world as it is, an increasingly complex place that is swiftly becoming more interconnected. VCU Globe is a global education living-learning community that opens windows to the complexity of globalization and fosters intercultural learning through sustained and structured interactions between program participants, international students, and community members in Richmond. Housed in West Grace North Residence Hall, this unique program features opportunities to meet people from all over the world, to participate in special events and celebrations, to work together in teams, and to be instrumental in making VCU and Richmond more global. Above all, VCU Globe provides students majoring in any discipline the chance to be part of something important that will be invaluable on their resumes. The program features:

- ☞ 12 hours of courses which lead to a certificate of global education
- ☞ Co-curricular activities in the residence hall and beyond
- ☞ Opportunity for special education abroad programs and scholarships
- ☞ Experiential learning through engagement in global communities on campus, in the city of Richmond, and abroad

**Curriculum:** The VCU Globe curriculum consists of six 1-credit globally-focused seminars, a special section of UNIV 200 (or approved alternative), and one 3-credit course from an approved list.
